## Computer Coding Information Session

### Change of Time

On Thursday 18 February, Wallacia Public School will be hosting a computer coding information session run by *The Game Training Roadshow* and hosted by noted gamer Jeff Ayling.

This session is specifically designed for students, and parents of students, in Years 3-6.

This information session will be held in the Mr Boyd and Miss Gobor's classrooms. Originally, the session was to be held between 10.00am and 11.00am, however the *Game Training Roadshow* have asked to reschedule for between 9.00am and 10.00am. I felt that this would better suit most parents, so have agreed to reschedule the event. Apologies if this inconveniences anyone.

If, after attending this session, parents are interested in having their child participate further in this initiative, there will be a cost involved, however, the initiative will further support computer coding activities being undertaken by all students at school. We look forward to seeing you there.

We would love to see as many parents and carers as possible attend this event, to allow them to make an informed decision regarding whether to have their child participate further in this initiative.

Regards, Mark Davies

Principal
